How to Give Our Herbal Solution to Your Dog

Gently shake the bag before use to mix settled herbs. Mix the proper dosage of Herbal Solution with a small amount of water using the provided mix cup. Then, you may combine it with dog friendly bone broth, organic canned pumpkin, powdered peanut butter, wet/canned food or any other food your canine deems high reward. If you are mixing more than one formula, mix and administer separately. You may give one formula right after the other. Please do not offer our Herbal Solution dry.

Herbs should not be given within 1-1/2 hours before or after medication.

Weight Based Doses Given 2 times daily:

	Weight Dosing	Guideline Measurements
